

AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the application:

1-12 (cancelled).

13 (currently amended). A fastener for securing a tube to a patient, comprising a tube and a sleeve of variable length capable when lengthened of gripping the tube.

14 (previously presented). A fastener according to claim 13, wherein the sleeve when shortened is capable of sliding along the tube.

15 (previously presented). A fastener according to claim 13, further comprising attachment means for attaching the sleeve to a patient.

16 (original). A fastener according to claim 15, wherein the attachment means comprises one or more loops.

17 (original). A fastener according to claim 16, wherein the or each loop is formed by doubling over the sleeve.

18 (previously presented). A fastener according to claim 15, wherein the attachment means comprises a harness, sling or other means adapted to embrace a part of the patient.

19 (previously presented). A fastener according to claim 15, wherein the attachment means comprises a pad or flange adapted to lie against part of the patient's body.

20 (original). A fastener according to claim 19, wherein the pad or flange is adapted to be adhered or sutured to the patient's body.

21-30 (cancelled).

31 (previously presented). A fastener according to claim 13, wherein the sleeve has a perforated or foraminous wall defining a plurality of openings.

32 (previously presented). A fastener according to claim 31, wherein an opening is capable of permitting the tube to pass through the wall of the sleeve.

33 (previously presented). A fastener according to claim 32, wherein the sleeve wall is a mesh, grid, net or web.

34 (previously presented). A fastener according to claim 31, wherein the sleeve is of filamentary construction.

35 (previously presented). A fastener according to claim 31, wherein the sleeve is a spirally woven tube.

36 (currently amended) A fastener comprising a tube and a sleeve of variable length capable when lengthened of gripping a the tube for the purpose of securing the tube to a patient.

37-38 (cancelled).

39 (previously presented). In combination, a fastener as defined in claim 13 and instructions for its use in securing a tube to a patient.

40-45 (cancelled).
